

## *Expansion for Lundhs*

Through the acquisition of all the shares in the company Larvikite AS, we have extended our product programme with two additional materials from Larvik area.

Based upon this we are glad to offer the two materials Lundhs Black and Lundhs Ocean.

Lundhs Black is a dark syenite with small feldspar crystals. The quarry is located approximately 2 km. south east from Lundhs Emerald quarry. The previous trade names were Emerald Black or Labrador Black.

Lundhs Ocean has a grey-green background with small blueish feldspar crystals. This material is also known as Emerald Blue Pearl. The quarry is located 1 km. north from the Lundhs Marina Blue quarry.

# Crafted by nature

## Refined for living

### LUNDHS Black

We recommend this material for both interior and exterior use. Lundhs Black is suitable for use as kitchen tops as well as for ornamental use.

We advice one cutting direction on the rough blocks, however it is also possible to cut this material in other directions.

The rough blocks are available in both 1.ch. and 2.ch. quality.

### LUNDHS Ocean

We recommend this material for both interior and exterior use.

Lundhs Ocean is suitable for use as cladding, tiles as well as for use in shop fronts.

From the quarry we advice the cutting direction on the blocks, however you can cut the material in all directions.

The rough blocks are available in both 1.ch. and 2.ch. quality.

### LUNDHS Blue

Lundhs Blue is known as the original Blue Pearl material, characterised by its medium-sized deep blue feldspar crystals. Lundhs has several quarries in the Blue Pearl area, and GT is one of the most famous.

### LUNDHS Emerald

Lundhs Emerald is the original Emerald Pearl. Lundhs Emerald has a distinct appearance, with lustrous blue crystals and dark background.

### LUNDHS Royal Blue

Lundhs Royal Blue has large crystals and bright blue colour. The material is exclusively produced by Lundhs.

### LUNDHS Marina Blue

Lundhs Marina Blue is characterised by large steel-blue feldspar crystals. The material is exclusively produced by Lundhs.

### LUNDHS Silver

Lundhs Silver has a large content of silver sparkling crystals with dark greyish background. Previous trading name for this material was Blue Pearl Fjord.

### LUNDHS Antique

Lundhs Antique has a unique compound of clear blue/purple crystals on brown background. Previous trading name for this material was Labrador Antique.

### LUNDHS Norwegian Rose

The marble Lundhs Norwegian Rose is produced above the arctic circle. The material is characterised by soft pink and white colour.
